## Section snippets

## Key points

- Large volume liposuction (LVL), performed by board-certified plastic surgeons using energy-assisted liposuction devices, is safe with improved aesthetic outcomes and minimal complications....
- Utilizing synergistic energy-based devices, VASERLipo and Renuvion, can achieve substantial retraction following LVL....
- Evidence-based protocols, including hypothermia prevention, deep vein thrombosis (DVT) prophylaxis, and perioperative antibiotics, reduces complications....
- For optimal patient safety and...

- *The Renuvion® APR Handpiece is intended for the delivery of radiofrequency energy and/or helium plasma where coagulation/contraction of soft tissue is needed. Soft tissue includes subcutaneous tissue.*
- *The Renuvion APR Handpiece is intended for the coagulation of subcutaneous soft tissues following liposuction for aesthetic body contouring.*
- *The Renuvion APR Handpiece is indicated for use in subcutaneous dermatological and aesthetic procedures to improve the appearance of lax (loose) skin in the neck and submental region.*
- *The Renuvion APR Handpiece is intended for the delivery of radiofrequency energy and/or helium plasma for cutting , coagulation and ablation of soft tissue during open surgical procedures.*
- *The Renuvion APR Handpiece is intended to be used with compatible electrosurgical generators owned by Apyx Medical.*
